

<p>Summary</p>	<ul style="list-style-type: none"> • Extensively used ETL methodology for supporting Data Extraction, Transformation and Loading process, in a corporate-wide-ETL Solution using Talend. • Experience in various industries like Finance, HealthCare, and Insurance. • Worked extensively on several components of Talend. • Having Knowledge on how the jobs deployed into TAC. • Worked on creating context groups and context variables. • Have experience in error handling techniques. • Expertise in both Community and Enterprise versions (Worked on projects using several Talend versions, Version 5 through the Talend 7.3.1). • Proficient in Talend services installation like studio, TAC, Job servers, RFC server on Windows. • Extensive experience in Extraction, Transformation and loading of data directly from heterogeneous source systems like Oracle, Flat files and SQL server. • Proficient in Error Handling, Performance Analysis and Performance Tuning of Talend. • Team player, Motivated, able to grasp things quickly with analytical and problem-solving skills.
<p>Skills and Responsibilities</p>	<p><i>Key responsibilities handled across various projects</i></p> <ul style="list-style-type: none"> • Installation of Talend TAC 7.3.0 & 8.0.1 • Installation of Talend Job servers 7.3.0 & 8.0.1 • Installation of TDP & TDS on on-premises and In Hybrid mode (Talend cloud) • Remote Engine Installation in Hybrid mode(Talend Cloud)
<p>Skills and Responsibilities</p>	<p><i>Technical Skills:</i></p> <ul style="list-style-type: none"> • Data Integration (Talend DI) • Oracle 10g, SQL Server, MySQL <p><i>Talend Specific skill set:</i></p> <ul style="list-style-type: none"> • Talend Platform (DI) • Talend administration

Some of the Strategic Projects Delivered	Project /Customer	Brief details of Project
	Largest Insurance company in India	<p>Talend, TAC</p> <ul style="list-style-type: none"> Successfully installed Talend Data Integration on servers, ensuring seamless integration with existing systems and databases. Configured Talend Studio, Talend Job Server, and Talend Administration Centre to meet specific requirements. Implemented security measures, such as user authentication and access controls, to protect sensitive data within the Talend environment. Install & configure Nexus repository and publish jobs directly from studio to TAC Conducted extensive testing and troubleshooting to resolve any installation issues and ensure optimal performance. Implemented post-upgrade optimizations to enhance the performance of the Talend environment. Tuned Talend jobs and transformations to improve data processing speed and efficiency.
	Micro Finance company in India	<p>Talend, TAC, TDS, TDP</p> <ul style="list-style-type: none"> Successfully Installed Talend TAC 8.0.1 in Linux server Successfully Installed and configured job server in Linux server Successfully installed TDS and TDP Installed Talend studio. Successfully created jobs for Incremental loading from Source database (MYSQL) to target database (PostgreSQL). Installed Nexus, configured and published the job through Nexus.
	Largest bank in Cambodia	<ul style="list-style-type: none"> Successfully installed Talend Data Integration on Linux servers, ensuring seamless integration with existing systems and databases. Implemented security measures, such as user authentication and access controls, to protect sensitive data within the Talend environment. Conducted extensive testing and troubleshooting to resolve any installation issues and ensure optimal performance. We have done HA active-active configuration for TAC servers. Implemented post-upgrade optimizations to enhance the performance of the Talend environment. Tuned Talend jobs and transformations to improve data processing speed and efficiency.
Education	Completed B.Tech (CSE) in 2022 from Bheemana Khandre Institute of Technology Bhalki.
