👤 Profile

I am a seasoned DevOps Engineer with a passion for streamlining software development and deployment processes. My journey in the world of technology began with a proficient DevOps Engineer specializing in Talend software installation and Talend Data Integration (DI), along with a suite of DevOps tools.

🔷 Talend Mastery: I possess an in-depth understanding of Talend, a leading data integration and ETL (Extract, Transform, Load) platform. I've successfully installed, configured, and optimized Talend environments for various organizations, ensuring smooth data integration workflows.

📊 Data Integration Wizardry: Talend DI is my playground. I've orchestrated complex data pipelines, transforming raw data into valuable insights. Whether it's data cleansing, migration, or integration across diverse sources, I thrive in crafting efficient and scalable solutions.

🔧 DevOps Tools Maestro: I'm well-versed in the DevOps ecosystem. From version control with Git to continuous integration/delivery (CI/CD) pipelines using Jenkins, GitLab CI, I've orchestrated streamlined software development lifecycles.

🐳 Containerization & Orchestration: I'm no stranger to containerization technologies like Docker and container orchestration platforms like Kubernetes. I've containerized applications, improving portability, scalability, and resource utilization.

💼 Work experience

09/2022 – present Hyderabad, Telangana, India	**DevOps Engineer** **Artha Solutions**
06/2022 – 11/2022 Bangalore, Karnataka, India	**Intrenship** **KodNest**
08/2021 – 09/2021 Pune, Maharashtra, India	**Software Test Engineer** **DYNOMERK CONTROLS** Nice place to learn soft and hard skills together. compnay is a combination of hardware and software…

🎓 Education

|	
08/2018 – 06/2022 Bhalki, India	**Computer science and Enginnering | Bacholer of Enginnering** **Bhemmana khandre Institute of Technology Bhalki** percentage:- 80%
07/2016 – 05/2018 Basvakalyan, India	**PUC | Inter** **Daimond pu science college** percentage:- 74%
06/2014 – 05/2016 ,Ekamba,Basvalakyan, India	**SSLC | Junior** **Government high school Ekamba** Percentage :- 90%

⭐ Skills

Kubernetes ・ Software Installation ・ pyhton ・ Talend Open Studio ・ Talend DI ・ Talend Cloud ・ Talend Data prepration ・ Talend Data Stewardship ・ Bash scripting ・ Docker ・ Powershell ・ Linux ・ Tomcat ・ Kafka ・ Jenkins ・ Amazon Web Services (AWS) ・ Microsoft Office ・ Microsoft Excel ・ MySQL ・ Time Management ・ Software Testing ・ Sofware engineering

💬 Languages

100% Marathi   **100%** English   **100%** Kannada   **100%** Hindi

💼 Projects

Noida, india	**Nivabupa** • Successfully installed Talend Data Integration on servers, • Ensuring seamless integration with existing systems and databases. • Configured Talend Studio, Talend Job Server, and Talend Administration Centre to meet specific requirements. • Implemented security measures, such as user authentication and Access controls, to protect sensitive data within the Talend environment. • Install & configure Nexus repository and publish jobs directly from studio to TAC • Conducted extensive testing and troubleshooting to resolve any installation issues and ensure optimal performance. • Implemented post-upgrade optimizations to enhance the performance of the Talend environment. • Tuned Talend jobs and transformations to improve data processing speed and efficiency.
Karnatka, India	**Karnataka Bank** • Successfully Installed Talend TAC 8.0.1 in Linux server • Successfully Installed and configured job server in Linux server. • Successfully installed TDS and TDPInstalled Talend studio. • Successfully created job for Incremental loading from Source database to target database.

💼 Projects

- Installed Nexus and configured it and published the job through Nexus.

Hydrabad, India

Ceiphal
- Installed Talend Remote Engine to run the jobs.
- Creating and Publishing the jobs in Talend Cloud.
- Exploring more on the Talend Cloud.
- Working On the TDP and TDS.
- Creating a pipeline flow of Data on Talend Cloud.
